RE: Revisions to the Long Creek Watershed Management Plan

Dear Peter,

This letter is in response to the Long Creek Watershed Management District's ("District") letter to the Department dated December 27, 2017, pursuant to Part IV(D) of the General Permit – Post Construction Discharge of Stormwater in the Long Creek Watershed (W-9052-5Y-B-N), issued by the Department on April 15, 2015, which allows for periodic reassessment of the Long Creek Watershed Management Plan ("LCWMP") to provide stricter or more relaxed requirements as necessary and approved by the Department.

The Department has reviewed the District's request for LCWMP amendments and approval of projects constructed to date as outlined in the District's letter dated December 27, 2017. Based on this review, the Department finds Tier 1, Tier 2, and Tier 3 structural projects completed to date satisfies the goals of section 5.2 of the LCWMP. In addition, the Department accepts the District's LCWMP amendments for section 5.4 as outlined in the District's letter December 27, 2017.

Any future amendments to the LCWMP will require the Department's review and approval prior to implementation.

Sincerely,

Alison R. Moody
Stormwater Inspector, Bureau of Water Quality
